Sharp announces launch of premium Plasmacluster Hair Dryer with Vestige

## Ahmedabad, SHARP, a wholly-owned Indian

 Ahmedabad, SHARP, awhollyy-owned Indian
subsidiary of SHARP Corporation, Japan, known
worldwide for its unique worldwide for its unique
technology products and technology products and
solutions, launched Sharp Plasmacluster Hair Dryer. It it
the premium hair dryerthat the premium hair dryerthat
will be introduced through the wil be introduced through the
strategic partnership with Strategic partnership with
Vestige Marketing Private
Limited Limited. Catering to the increasing grooming-at-home
requirements of consumers, requirements of consumers,
the new hair dryer is equipped with Sharp's original and patented Plasmacluster
Technology along with a Technology along with a
superb wind flow system. It is superb wind flow system. It is
designed to provide superior designed to provide superior
experience users by making
hair smoother, reducing cuticle experience to users by making with a healthier scalp.
Commenting on the launch,
Narita Osamu, Managing
Director, SHARP Business
Systems (India) Pvt. Ltd said,
"Starp has always been at the
forefront when it comes to
enhancing the scope of enhancing the scope of our esteemed consumers.
With the launch of our With the launch of our hair dryer, we hope to both
satisfy consumer expectations satisfy consumer expectations
for style without the curse of damaging the hair. Our innovative research and
development around Plasmacluster Technology has
allowed us to provide our allowed us to provide our
customers with this unique offering in a compact form. We
hope to extend the benefis of hope to extend the benefits of
Plasmacluster Technology Plasmacluster Technology
through this. We expect to through this. We expect to
compliment the current product categories and reach
a larger consumer base as we launch this product through of Vestige
India." $(19-10)$Vestige

Cirdsain changes in genes give humans individuality and hum uniqueness. The English serials called Hero, the Hollywood Spiderman etc. are 'sciencé fiction' versions of humans genetic mutations.

Experiments have shown that
some women some women have a vision
called 'tetra vision'.
these genes are activated in
future generations in the
process of natural selection, an
entire population of females process of natural selection, an
entire population of females
may be gifted with tetra vision.
